

QUIETCOMFORT® & PERFORMANCE

CROSSOVER SOLUTIONS HEAT PUMPS

VERSATILITY, PERFORMANCE & COMFORT

Featuring

R454B

Models: D5CUHAH, D5CURAH

WHY ARE SO MANY HOMEOWNERS CHOOSING CROSSOVER?

Keeprite® Crossover Solutions provide a system that maintains the characteristics of traditional ducted heating and cooling while leveraging elements of ductless technology. Our systems are compatible with residential fan coils and furnaces, ensuring a seamless integration with your existing HVAC setup. They're the perfect choice for spaces of all sizes, creating a whole-home solution that can't be matched.

Environment

Keeprite is committed to providing our planet and people with a better future by offering the best refrigerant for each application. After years of research, development and field trials, we will be transitioning to the use of R-454B, with a 75% reduction in global warming potential.

Comfort Technology

Keeprite Crossover Solutions are powered by an inverter compressor that continually adjusts its speed as conditions change—for consistent comfort with lower energy usage. Plus, enjoy year-round comfort with a QuietComfort® Series heat pump that offers dependable performance in temperatures from -22° F to 122° F.*

Performance

Our QuietComfort Series Crossover Systems deliver up to 19.0 SEER2 and 10.8 HSPF2 ratings. Additionally, the Crossover heat pumps operate at sound levels as low as 55 dB(A), creating an ideal comfort without disrupting noise.

Dual Fuel

The Crossover heat pump can be paired with oil or gas furnaces, automatically switching between the two fuel sources based on the outside temperature to provide efficient comfort year-round.

Keeprite No Hassle Warranty

To the original owner, the Keeprite QuietComfort Series equipment qualifies for a 5-year No Hassle Replacement™. It means comfort with no questions. We'll replace your unit if the compressor or coil fails within the covered period. This provides extra coverage in addition to a 10-year parts limited warranty.**

**Timely registration required for 10-year parts limited warranty. Limited warranty period is five years for parts if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate for complete details and exclusions.

THE KEEPRITE DIFFERENCE

If you could look under the hood of a Keeprite Crossover System, you'd see the future of electric, inverter-driven heat pump technology as the solution for home heating and cooling upgrades. Systems designed to deliver unparalleled heating and cooling comfort, performance and ease of installation.

When the QuietComfort Series heat pump is paired with the air handler from the same series, you get a system packed with high efficiency technology that qualifies as ENERGY STAR® certified.

Additionally, the horizontal design of the coils allows for more efficient heat transfer, which can lead to lower heating and cooling bills.

QUIETCOMFORT CROSSOVER AIR HANDLER

A RANGE OF COMFORT

Experience the best of inverter heat pump technology and traditional HVAC systems.

	QuietComfort Heat Pump + QuietComfort Air Handler	QuietComfort Heat Pump + Performance Air Handler	Performance Heat Pump + Performance Air Handler
SEER2	19.0	19.0	18.8
HSPF2	10.8	10.3	9.7
ENERGY STAR® Certified	All combinations	Select combinations	-
Continuous Operating Range	-22° F/122° F	-22° F/122° F	-13° F/122° F
Indoor Unit Sound Operation	As low as 33.0 dB(A)	As low as 25.5 dB(A)	As low as 25.5 dB(A)

A FULL SPECTRUM OF COMFORT

It's no secret that ductless and traditional HVAC systems each have their own set of advantages. So why not reap the benefits of both?
